

CONTENTS

Sl. No.	Particulars	Page No.
1.0	INTRODUCTION	1-7
2.0	LITERARY RESEARCH ON PRĀṆĀ AND PRĀṆĀYĀMA	8-42
2.1	BACKGROUND AND SCOPE	8
2.2	AIMS AND OBJECTIVES OF LITERARY RESEARCH	9
2.3	MATERIALS AND METHODS- SOURCE MATERIAL	9
2.4	CONCEPT OF PRĀṆA FROM THE ANCIENT INDIAN LIETRATURE	10-27
2.4.1	THE ORIGIN AND IMPORTANCE OF PRĀṆA	12-21
2.4.2	THE CONCEPT OF PAÑCAPRĀṆA AND THEIR FUNCTIONS	22-27
2.5	CONCEPT OF PRĀṆAYĀMA FROM THE ANCIENT INDIAN LIETRATURE	28-42
2.5.1	METHODOLOGY OF PRACTICE OF PRĀṆĀYĀMA	31-36
2.5.2	EFFECTS OF PRACTICE OF PRĀṆĀYĀMA	37-42

2.6	SUMMARY	42
3.0	REVIEW OF SCIENTIFIC LITERATURE	43-82
3.1	NEUROCOGNITIVE EFFECTS OF YOGIC BREATHING	43-50
3.2	PSYCHOPHYSIOLOGICAL EFFECTS OF YOGIC BREATHING	51-63
3.3	EFFECTS OF YOGIC BREATHING ON BIOCHEMICAL AND METABOLIC VARIABLES	64-69
3.4	HEALTH BENEFITS OF YOGIC BREATH REGULATION	70-81
3.5	COMPLICATIONS OF YOGIC BREATHING	82
3.6	SUMMARY	82
4.0	AIM AND OBJECTIVES	83
4.1	AIM	83
4.2	OBJECTIVES	83
4.3	HYPOTHESIS	83
4.4	NULL HYPOTHESIS	83
5.0	MATERIALS AND METHODS	84-112
5.1	PARTICIPANTS	85-91
5.1.1	SAMPLE SIZE	85-86

5.1.2	SELECTION OF THE PARTICIPANTS	86
5.1.3	INCLUSION CRITERIA	86
5.1.4	EXCLUSION CRITERIA	86-87
5.1.5	ETHICAL CONSIDERATIONS	87
5.2	DESIGN OF THE STUDY	92-94
5.2.1	STRUCTURE OF THE SESSIONS	92
5.2.2	ORDER OF THE SESSIONS	93-94
5.3	VARIABLES STUDIED	95-106
5.3.1	AUTONOMIC AND CARDIOVASCULAR VARIABLES	95-103
5.3.2	PERFORMANCE IN STOP SIGNAL TASK	104-107
5.4	INTERVENTION	108-109
5.4.1	YOGA BREATHING WITH INTERMITTENT BREATH HOLDING (YBH)	108
5.4.2	CONTROL SESSION	109
5.4.3	ADVERSE EVENTS	109
5.5	DATA EXTRACTION	110-111
5.5.1	DATA FROM THE POWERLAB 16/35	110
5.5.2	DATA FROM THE FINAPRES MEDICAL SYSTEM	111
5.5.3	DATA FROM THE STOP SIGNAL TASK	111
5.6	DATA ANALYSIS	112
5.6.1	AUTONOMIC AND CARDIOVASCULAR VARIABLES	112
5.6.2	PERFORMANCE IN STOP SIGNAL TASK	112

6.0	RESULTS	113-126
6.1	AUTONOMIC AND CARDIOVASCULAR VARIABLES	113-123
6.1.1	RECAPITULATION	113-115
6.1.2	HEART RATE VARIABILITY (HRV)	116-119
6.1.3	CARDIOVASCULAR CHANGES	120-123
6.2	PERFORMANCE IN STOP-SIGNAL TASK	124-126
6.2.1	RECAPITULATION	124-126
7.0	DISCUSSION	127-137
7.1	AUTONOMIC AND CARDIOVASCULAR VARIABLES	127-134
7.2	PERFORMANCE IN STOP SIGNAL TASK	134-137
8.0	APPRAISAL	138-140
8.1	SUMMARY AND CONCLUSIONS	138
8.2	STRENGTHS OF THE STUDY	138-139
8.3	LIMITATION OF THE STUDY	139
8.4	IMPLICATION	139
8.5	FUTURE DIRECTIONS	139-140
	REFERENCES	141-165

	APPENDICES	
1.0	Informed Consent Form: Sample Copy	166-169
2.0	Copy of the Clearance letter from Institutional Ethics Committee	170-171
3.0	Data of Cardiovascular and Autonomic Variables of Individual Participants	172-201
4.0	Data of the performance in Stop Signal Task of Individual Participants	202-207
5.0	List of Publications	208

LIST OF TABLES

Table No	TITLE	Page No
2.0 LITERARY RESEARCH ON PRĀṆĀ AND PRĀṆĀYĀMA		
1	The Physical Location and Functions of each of the Prāṇā	27
3.0 REVIEW OF SCIENTIFIC LITERATURE		
2	The Neurocognitive Effects of Yogic Breathing.	47-50
3	Psychophysiological and Respiratory Changes Following Yogic Breathing	57-63
4	Biochemical and Metabolic Changes Following Yogic Breathing	67-69
5	Effects of Yogic Breathing in Clinical Population	74-81
5.0 METHODS		
6	Characteristics of Participants assessed for the Autonomic and Cardiovascular Variables before and following Experimental and Control Sessions	88-89
7	Characteristics of Participants assessed for the Performance in the Stop Signal Task before and following Experimental and Control Sessions	90-91

6.0 RESULTS		
8	Changes in the Autonomic and Cardiovascular Variables before and following the Experimental and Control Sessions	115
9	Summary of the Repeated Measures Analysis of Variance (RM-ANOVA) showing Statistically Significant Results.	117
10	The outcomes of the Stop Signal Task at baseline and following the experimental and control sessions.	125
11	Results of the RM-ANOVA done on the variables from the Stop-Signal Task.	125
Appendix 3: Raw Data of the Autonomic and Cardiovascular Variables		
12	Heart rate recorded at pre and post following Experimental and control sessions.	172- 173
13	SDNN recorded at pre and post following Experimental and control sessions.	174- 175
14	RMSSD recorded at pre and post following Experimental and control sessions.	176- 177
15	pNN50 recorded at pre and post following Experimental and control sessions.	178- 179

16	LF nu recorded at pre and post following Experimental and control sessions.	180- 181
17	HF nu recorded at pre and post following Experimental and control sessions.	182- 183
18	LF:HF ratio recorded at pre and post following Experimental and control sessions.	184- 185
19	Respiratory Rate recorded at pre and post following Experimental and control sessions.	186- 187
20	Systolic Blood Pressure recorded at pre and post following Experimental and control sessions	188- 189
21	Diastolic Blood Pressure recorded at pre and post following Experimental and control sessions	190- 191
22	Mean Arterial Pressure recorded at pre and post following Experimental and control sessions	192- 193
23	Stroke Volume recorded at pre and post following Experimental and control sessions	194- 195
24	Cardiac Output recorded at pre and post following Experimental and control sessions	196- 197

25	Total Peripheral Resistance recorded at pre and post following Experimental and control sessions	198- 199
26	Baroreflex Sensitivity recorded at pre and post following Experimental and control sessions	200- 201
Appendix 4: Raw Data of the performance in Stop Signal Task		
27	Stop Signal Reaction Time at baseline, following experimental and control sessions	202- 203
28	Probability of Responding on Stop Signal Trials at baseline, following experimental and control sessions	204- 205
29	Go Reaction time at baseline, following experimental and control sessions	206- 207

LIST OF FIGURES

Figure No	TITLE	Page No
2.0 LITERARY RESEARCH ON PRĀṆA AND PRĀṆAYĀMA		
1	The Distribution of Pañcaprāṇa in the Human System.	25
5.0 METHODS		
2	Schematic representation of the self as control study design used for assessment of Autonomic and Cardiovascular variables	94
3	Schematic representation of the repeated measures design adapted for Performance in Stop-Signal task	94
4a	The Components of the Finapres Non-Invasive Blood Pressure monitoring system	99
4b	The position of the Finger cuff used for assessment of NIBP	99
4c	A subject seated in a sound attenuated cabin with NIBP finger cuff, Lead II EKG and Respiration Belt along with the recording system	100
5	Screen Capture of NIBP recording	101
6	Screen Capture of HRV and Respiration Recording	103

7	Schematic Representation of the Stop-Signal Paradigm	106
8	Illustration of the Probabilities of responding on Stop-Signal Trials based on the Horserace Model	107
9	Schematic representation of one cycle of the practice of yoga breathing with intermittent breath holding	109
6.0 RESULTS		
10	Heart Rate recorded before and following the YBH and Control Sessions	118
11	Changes in the LF nu & HF nu of HRV; before and following the YBH and Control Sessions	118
12	Graphical representation of the changes in the LF:HF ratio	119
13	Changes in the Time Domain Analysis of HRV before and following the YBH and Control sessions	119
14	Changes in Blood Pressure before and following the YBH and Control Sessions	121
15	Changes in Stroke Volume before and following the YBH and Control Sessions	121
16	Cardiac Output before and following the YBH and Control Sessions	122

17	Graphical representation of the changes in the Total Peripheral Resistance	122
18	Baroreflex sensitivity before and following the YBH and Control Sessions	123
19	Graphical Representation of the changes in the Stop Signal Reaction Time	126
7.0 DISCUSSION		
20	Possible mechanism of action for autonomic modulation due to slow breathing	131
