

CONTENTS

SL. NO.	DETAILS	PAGE NO.
1.0	INTRODUCTION	
	Neurodevelopment disorders (NDDs).....	1
	Global prevalence of NDDs.....	1
	Prevalence of NDDs in India.....	2
	Definition of caregiver.....	2
	Factors relating to caregivers' burden.....	2
	What is emotion and how does it matter?.....	3-6
	Emotion regulation	6
	Importance of emotion regulation	7
	Pathophysiology of emotion dysregulation.....	7-9
	Effects of emotion dysregulation.....	9
	Conventional management.....	11
	Canons of expression and yoga for emotion regulation for caregivers.....	11-12
	Need for the study.....	13
2.0	LITERARY RESEARCH ON ANCIENT SCRIPTURES	14
2.1	BACKGROUND AND SCOPE.....	15-16
2.2	Aims and Objectives	16
2.3.	Materials and Methods	16
2.3.1	Classical yogic texts.....	16
2.3.2	<i>Nāṭyaśāstra</i> and related scriptures.....	17

2.3.1. a	Yoga.....	18
2.3.1. b	Paths in yoga.....	18
2.3.1.c	Causes of emotion dysregulation in yoga texts.....	19-20
2.3.1. d	Management of emotion dysregulation in yoga texts.....	20-26
2.3.2. a	Art and philosophy, ethics and aesthetics.....	26
2.3.2. b	The concept of <i>Nāṭya</i> dance	27
2.3.2. c	<i>Nāṭyaśāstra</i>	28-29
2.3.2. d	Canons of expression (CE) in Indian aesthetic dances..... I) <i>Āṅgika abhinaya</i> (articulation through creative movements) II) <i>Sāttvika</i> (Representation of sentiments) a) <i>Rasa</i> (Sentiments) b) <i>Bhāvās</i> <i>Vibhāva</i> (Determinant) <i>Anubhāva</i> (Consequent) b.1) <i>Sthayībhāvās</i> : Permanent moods /Durable psychological states b.2) <i>Sañcārī / Vyabhicārī bhāvās</i> b.3) <i>Sāttvika bhāvās</i> / Permanent moods or States / Dominant emotions/Involuntary states.	29-50
2.3.2. e	Indian classical music supporting <i>abhinaya</i>	51
2.3.2. f	Notes (<i>svarā</i>).....	52
2.4	Summary.....	54-56
3.0	REVIEW OF SCIENTIFIC LITERATURE	57
	Introduction to review of scientific literature	58-59
3.1	Indian caregivers.....	59-60
3.1.1	Program for caregivers.....	60-62
3.2	Yoga reviews.....	63-72
3.3	Creative art therapies.....	73

3.3.1	Drama therapy.....	73
3.3.2	Drama therapy.....	73
3.3.3	Dance movement therapy (DMT).....	74-79
3.4	Limitations traced in the study of DMT.....	80
3.5	Need for the current study on canons of expression and yoga..	80
4.0	AIM AND OBJECTIVES	82
4.1	Aims of the study.....	83
4.2	Objectives of the study.....	83
4.3	Hypothesis and null hypothesis.....	83
4.4	Justification of the study.....	84
5.0	METHODS	85
	Methods	86
5.1	Participants	86
5.1.1	Sample size.....	86
5.1.2	Selection and source of participants.....	86
5.1.2. a	Recruitment procedure of samples.....	86-87
5.1.3	Inclusion criteria.....	87
5.1.4	Exclusion criteria.....	87-88
5.1.5	Ethical consideration.....	89
5.1.6	Screening tool.....	89
5.2	Design of the study.....	89
5.2.1	Randomization.....	89-90

5.2.2	Blinding.....	90
5.3	Variables studied (outcome measures)	90
5.3.1	Primary outcome measures.....	90
5.3.1.a	Socio-demographic questionnaire.....	90-91
5.3.1(i)	Zarit Burden Inventory (ZBI).....	91
5.3.1(ii)	Depression Anxiety Stress Scale (DASS-21)	91
5.3.2	Secondary outcome measures.....	91
5.3.2(i)	Revised Caregivers Appraisal Scale (RCAS)	91-92
5.3.2(ii)	World health organization quality of life scale-BREF (WHOQOL-BREF)	92
5.3.2(iii)	Electro photonic image (EPI).....	92-93
5.4	Interventions.....	93
5.4.1	Intervention of CE/IAD.....	92-95
5.4.2	Intervention of yoga.....	95-96
5.5	Data extraction.....	97
5.6	Data analysis.....	97-98
6.0	Results.....	99
6.1	Per protocol analysis	100
6.2	EPI parameters.....	100-15
7.0	DISCUSSION	116
7.1	Summary.....	117
7.2	Mechanism.....	117
7.2.1	Effect of CE on psychological and behavioral intervention parameters for CGs of children with NDDs.....	117-21

7.2.2	Effect of yoga on psychological and behavioral intervention parameters of CGs of children with NDDs.....	121-23
7.2.3	Effect of CE and yoga on the specific variables measures by EPI parameters.....	123-25
7.2.4	Cakra analysis.....	125-27
7.3	My perception in the course of this research study.....	128-33
7.4	Flow of canons of expression (CE) compared to yoga in five sheaths of human existence.....	133-37
8.0	APPRAISAL	139
8.1	Summary of the findings.....	140
8.2	Conclusion.....	140
8.3	Implications of the study	140
8.4	Applications of the study	141
8.5	Strength of the study.....	141-42
8.6	Limitations of the study.....	142
8.7	Suggestions for future studies.....	142
9.0	REFERENCES	143-161
	APPENDICES	162
1.0	Institutional ethics committee approval.....	163
2.0	Informed consent form.....	164-66
3.0	Clinical Trial Registry of India (CTRI) registration form.....	167
4.0	Socio-demographic data sheet.....	168
5.0	Zarit Burden Inventory.....	169-70
6.0	Depression Anxiety Stress scale-21(DASS-21).....	171
7.0	Revised Caregiving Appraisal Scale.....	172-73

8.0	World Health Organization Quality of Life (BREF) scale.....	174
9.0	Bio-well camera and images.....	175
10.0	Images of canons of expression used (<i>sattvika</i> abhinaya used for canons of expression) intervention (<i>nava rasās</i>).....	176-78
11.0	Sub-sample images of <i>yoga</i> practices used for <i>yoga</i> intervention	179
12.0	Plates.....	180-85
13.0	Testimonies from participants.....	186-88

LIST OF TABLES

Table No	Name	Page No
2.0 REVIEW OF LITRARY RESEARCH ON CANONS OF EXPRESSION AND YOGA		
1	List of <i>aṅga</i> , <i>upāṅga</i> , and <i>pratyāṅga</i> as per <i>Nāṭyaśāstra</i> and <i>Abhinaya</i>	33
2	Rasa, it's meaning and related emotions	36
3	Negative emotion, subjugated <i>rasa</i> , corresponding health problems, and emotions to be cultivated to overcome	50
4	Specimen of Indian <i>Ragas</i> , related <i>rasa</i> , examples of lyrics used in the study	52
3.0 REVIEW OF SCIENTIFIC LITERATURE		
5	Review of non-Indian intervention studies on caregivers	60
6	Review of Indian studies of various interventions on caregivers	61
7	Indian studies on Yoga intervention on CGs.	65
8	Non-Indian studies on Yoga Intervention on CGs	66
9	Indian studies on Yoga intervention on various diseases/disorders	67-68
10	Non-Indian studies on Yoga intervention on various diseases/disorders	69-71
11	Studies of Dance movement (DMT) intervention on CGs	75
12	Non-Indian studies on the efficacy of Dance movement (DMT) intervention	76-78
5.0 METHODS		
13	Set of practices used for the intervention of canons of expression	89
14	Set of practices used for the intervention of yoga.	93
6.0 RESULTS		
15	Baseline characteristics of caregivers (n=96)	100
16	Summary of analysis of variance (ANOVA) of psychological variables	101
17	Results of outcome measures at pre, mid and post of dance, yoga and control groups. Values are given in mean and SD.	102-103
18	Pre and Post values of Pre and Post values of parameters measured by Electro photonic image	106
19	Pre- Post scores and percentage change in Value and symmetry of cakras	109

LIST OF FIGURES		
Table No	Name	Page No
1.0 INTRODUCTION		
1	Model depicting the pathway of body and mind interaction	5
2	Functional states of three systems in emotion regulation	6
3	depicts of neurotransmitters and hormones associated with three systems in emotion regulation	7
4	Conditions to emotion regulation leading to chronic pain	10
5.0 METHODS		
5	Trial profile of participants' recruitment	86
6.0 RESULTS		
6	Graphical presentation of ZBS scores	104
7	Graphical presentation of DASS-21 scores	104
8	Graphical presentation of subscales of WHOQOL(BREF)	105
9	Activation Coefficient of dance and yoga groups before and after the intervention compared to the control group	102
10	Sub-sample images of energy difference of CE, yoga and control group captured by EPI instrument pre-measurement and post-intervention	108
11	Sub-sample image of Value difference in <i>Cakra</i> pre-measurement and post-intervention captured by EPI instrument	110
12	Sub-sample image of Symmetry difference in <i>Cakra</i> pre-measurement and post-intervention captured by EPI instrument	111
13	Sub-sample image of alignment difference in <i>Cakra</i> pre-measurement and post-intervention captured by EPI instrument	112-13
7.0 DISCUSSION		
14	Summary of mechanism of emotion regulation (ER) mediated by canons of expression and yoga practices	135
